

Housing and Urban Development Guidance

Projects subject to environmental review under HUD's 24CFR Part 58 environmental rules that do not fall under HUD's disaster recovery programmatic agreement should be submitted to the State Historic Preservation Office following the normal 36 CFR 800 consultation process. Projects subject to environmental review under HUD's 24 CFR Part 50 rules must be submitted to the State Historic Preservation Office directly from the HUD office.

To facilitate our review of architectural drawings, please submit documents no larger than 11x17. We will request larger drawings if needed. Printed copies of digital images are acceptable if they clearly illustrate building forms and materials or the condition of the project location. Be sure to use high-resolution images and print appropriately.

Fax and email submittals are not accepted at this time (unless being provided under existing Programmatic Agreements with federal agencies for emergency projects as part of federally and state declared disasters.)

Technical assistance questions can be directed to SHPO106@iowa.gov.

Please submit a hard copy of the Request for SHPO Comment on a Project Form and all supporting documentation to:
