GREAT DEPRESSION

DISCO PUMPKIN

480 EARLY SUGAR—The best known pie pumpkin, early and small, excel lent quality and flavor. Also makes fine pies and pickles.

481 JAPANESE PIE—Pear-shaped with long neck, dark green skin. Early and sweet. Used for pies and stock food.

482 KING OF THE MAMMOTHS—Heavily named since they weigh as much as 75 to 100 pounds. They keep well, and can be used for pies as well as for stock.

483 LARGO CHEESE or KENTUCKY FIELD—Hardy, productive, and a good keeper. Weights about 100 pounds. The standard variety for canning.

484 CONNECTICUT FIELD—Usually grown in cornfield for stock. Used also for pies and canning. Weight about 20 pounds.

DISCO RADISHES

TURNIP OR ROUND VARIETIES

492 SCARLET GLOBE—The most desirable of early radishes, crisp and mild in flavor until nearly full size in diameter. Each member of the family will provide a generous planting for the early spring garden.

493 SCARLET TURPEN WHITE TIPPED—Extra tall and crisp, a white-skinned variety, tender and crisp. An inch in diameter.

496 CRIMSON GIANT—The largest of the early radishes, yet as mild and crisp as the smaller ones at their best.

496 TURNIP VARIETIES, MIXED—Each individual preference can be met if this mixture is planted. A wise purchase for a small garden.

Radish, Scarlet Turnip White Tip

Special prices given to market gardeners and those who order a large number of seeds. Please write for this special price, as well as for a list of all of the seeds we carry. We guarantee all seeds. All orders shipped postpaid, subject to our usual terms.
DISCO SPINACH

525 MAMMOTH SANDWICH ISLAND—Extremely
bitter because of its oyster flavor. Three
nations route are 6 to 8 in. long, 2 lance
spikes. They are ready
for use in October, and can be stored for winter
use, or left in the ground until spring.

526 LONG STANDING ROUND SEEDED—Slower
than Bloomdale; leaves very large and
of good substance.

537 KING OF DENMARK—Stands longer than
Bloomdale, large, blistered leaves, low growing
plants.

GREAT DEPRESSION

DISCO SWISS CHARD

80 LUCULLUS—Only the tops of this best are used.
The leaves, mild and spinach-like in flavor, provide
a great mass of tender, light green foliage. The
thick, white stalks are splendid for creaming
and asparagus. It replaces spinach during the hot weather, and will yield until frost if kept cut.

Houses. Mitchell S. D. — Emmetsburg, Iowa
550 EXTRA EARLY ORANGE MARROW—The earliest of the Marrow squashes, very prolific and a good keeper.

551 GIANT SUMMER CROOKNECK—The largest summer variety, and one of the earliest.

552 GOLDEN HUBBARD—Similar to a Hubbard in form, it is orange-red in color, and earlier.

553 IMPROVED HUBBARD—The standard winter squash with a dark green moderately warded shell. The flesh is fine grained, thick and dry, of excellent flavor.
GREAT DEPRESSION

DISCO PUMPKIN

480 EARLY SUGAR—The best known pie pumpkin, early and small, excellent quality and flavor.
481 JAPANESE PIE—Pear-shaped with long neck, dark green skin. Early and sweet. Used for pies and stock feed.
482 KING OF THE MAMMOTHS—Rightly named since they weigh as much as 75 to 100 pounds. They keep well, and can be used for pies as well as for stock.
483 LARGE CHEESE or KENTUCKY FIELD—Hardy, productive, and a good keeper. Weighs 10-15 pounds, standard variety for canning.

LONG SHAPED VARIETIES
500 CHARTIER—Though similar to French Breakfast, it is much larger in size and much sweeter.
501 ICICLE—The most popular white radish variety, roots 5 to 6 inches long.
504 LONG BRIGHTEST SCARLET—Modern introduction, best and earliest of the long scarlet types, crisp, fine quality.
503 ALL VARIETIES—A mixture of the above and other varieties.

FALL AND WINTER VARIETIES
510 BLACK SPANISH ROUND—A black-skinned round winter radish, 3 to 4 inches in diameter. A good keeper, 3½ to 4 inches in diameter.
511 BLACK SPANISH LONG—The best of all the winter radishes, it closely resembles the Black Spanish type in flavor. Length 8 to 9 inches, diameter 1½ to 3 inches.
512 CHINA ROSE (Scarlet China)—A long scarlet variety, winter radish, 5 to 7 inches long, crisp interior. Four to 5 inches long, diameter 1½ to 2 inches.

Treat with Semesan Before Planting.
