LESSON PLAN FOR SUPPORTING QUESTION

What artifacts help tell a person’s story?
Self Portrait Worksheet

This is me!
These children are waiting in line for water from the faucet in Yauco, Puerto Rico. The photograph was taken in January 1942. Courtesy of Library of Congress, Delano, Jack, "Children getting water from the faucet in the slum area in Yauco, Puerto Rico," January 1942.
This is a hand-drawn, bird's-eye view of Iowa City, Iowa, located in Johnson County. The illustration is from 1868 and shows the city next to the Iowa River. The town is laid out in a grid pattern, and the image shows that there is not a lot of trees and the area is relatively flat, but green. It appears that farmland is located off in the distance. *Courtesy of Library of Congress, Ruger, A., “Bird's eye view of Iowa City, Johnson Co., Iowa,” Chicago Lithographing Co., 1868*

Think of some of the important objects in your life. Perhaps you treasure an autographed baseball or a “straight-A” report card. What kind of everyday stuff is important in your life? A copy of your local newspaper gives movie listings. A bus ticket tells where you’ve been. Gather some of these objects and put them in any kind of container to make a history box. Remember to collect things that record your life, your personality, and your achievements. Add to the history box each year to continue your life’s story.
Artifacts That Tell My Story Worksheet

These are my artifacts that help tell my story.

The Mather family (to the right) is having fun on a camping trip near the Cedar River in the mid-1890s.

The man on the ground is William (Will) Mather. In 1851, when he was five years old, the Mather family moved to Springdale, Iowa from Ohio. Will liked to brag that he was the first to arrive at the family’s new farm. He ran ahead of the wagons, driving a small herd of cattle.

And who is the baby sitting on her father’s knee with an older sister? That’s Jeanne — a future genealogist (jean-ee-AH-low-jist). Genealogists try to identify all of their relatives, sometimes creating family trees that show family relationships. Some family trees go back for hundreds of years! During her lifetime, Jeanne Mather Lord recorded thousands of family stories.

It’s easy to be your family’s genealogist if you like detective work. Start by interviewing older relatives. Write down all the names mentioned, the towns in which their relatives lived, and the stories that make each person memorable. Keep all your information in one notebook.

Next, look for more information in written documents. Ask relatives if they have items like death and birth notices and birth and marriage certificates. Copy this information in your notebook.

Written documents can be tricky because of misspellings and mix-ups. Genealogists have to interpret the information they find because of this.

Some relatives are extremely hard to find. It may also be hard to track family roots if you’re part of a nontraditional family unit. Remarried and adopted relatives are also challenging. As families blend together, some names disappear.

Try to keep your family’s history up to date by recording new information, such as births and deaths, in your notebook. As an official genealogist, your work is never done!

interpret — try to explain the meaning of something

Unique to Me Worksheet

This makes me unique because _______________________.

Name ______________________
It's the year 2050. A movie producer decides to make a movie of your life. You probably could tell the producer about your childhood in Iowa, but could you show what it was like growing up in the 1990s? Yes, but only if you prepare now! Start by completing the following activities that document your personal history.

P.S. Fifty years from now when a movie producer or grandchild comes knocking on your door, you'll be ready to show them pieces of history!

**Time for a Timeline**

Just like history, your life is made up of many stories. Make a personal timeline to get a better look at these stories. Here's how. Tape pieces of paper together into a long sheet. In the middle of the page draw a long horizontal line. Divide the line into equal sections. Assign each section a year, starting with your birth year.

Write and draw a few important things that happened each year. You may want to include statewide events, too. For instance, you may have gotten a cool new bike and found a stray cat in 1994 — the year Governor Terry Branstad was elected governor of Iowa for the fourth time in a row!

When each year ends, add another piece of paper and update your stories!

---

**Scrapbooks:**

**History’s Savings Accounts**

A scrapbook is like a savings account where you deposit things that are important to you. Iowans have used scrapbooks to save comic strips, poems, greeting cards, photographs, and dried flowers. Today, some Iowans’ scrapbooks are stored in the State Historical Society archives for safekeeping.

To make your scrapbook, pick themes that illustrate who you are and what you’re all about — school, sports, family, hobbies, best friends. Buy a scrapbook, or make one by stapling paper together in a booklet. Now start filling it with your stuff. Write the date and a brief explanation next to each item.
**Lesson Summative Assessment**

| Draw and label three things people use that help tell a story about ourselves. |

Vocabulary Flashcards

Unique

Primary Source

Secondary Source

Photograph
Unique

To be unique is to be very special or unusual; something or someone that is unlike anything else.

Secondary Source

A secondary source is a document or recording that writes or speaks about information found in primary sources. Secondary sources interpret, evaluate or discuss information that is one step removed from the original source. Secondary sources are not primary sources.

Primary Source

A primary source is any piece of information that was created by someone who witnessed first hand or was part of the historical events that are being described. Common primary sources are items like journal entries or letters. A primary source is any piece of information that was created by someone who witnessed or were part of the historical events that are being described.

Photograph

A photograph is an image, or picture, that has been captured on film or some other material. It is typically taken with a camera.
Vocabulary Flashcards

Document

Artifact

Timeline

Map
A document is a written or printed paper that gives information or evidence of an official record.

A timeline is a picture/number showing increments of time. It can be a graph of events in the order they happened.

An artifact is an object that is made, used or modified by humans and gives people information about life in the past.

A map is a representation of an area of land or sea showing physical features.
Vocabulary Flashcards

Long, Long Ago

Today

Long Ago
Long, Long Ago

The time period that happened in the very distant past, so long ago that humans did not yet exist or did not have written records (prehistoric).

Today

The period of time that is happening now

Long Ago

The period of time that happened in the distant past. A grandparent or great-grandparent may remember an event from this time period.

Long, Long Ago

from this time period.

Grandparent may remember an event distant past. A grandparent or great-grandparent of Great.

The period of time that happened in the
