Show Patriotism

Attention of the merchants of this city was directed to the Liberty Loan posters which were distributed this morning. These posters were not distributed just for the purpose of giving a few boy boredom, but were given to the local newspapers as a matter of practical patriotism. They display the nearest recruiting station, and all doors. The government is making the merchants to do this, and it doesn't matter if the color of the window decorations, patriotism, and all the other posters go into the business as a matter of business, and all the other posters should go to the nearest recruiting station. To those merchants who are not operating and are not supplying the local Liberty Loan committee, they express their appreciation.
